Connecticut's Changing Landscape

1985-2006 Land Cover Change

Riparian Areas

This map is a product of UConn CLEAR and shows 1985-2006 land cover change within a 300 foot riparian zone. The riparian zone was created using a GIS buffer of streams and shorelines. For more information, visit http://clear.uconn.edu/projects/riparian/.

This map is intended for planning and educational purposes only. It is based on the interpretation and classification of remotely sensed satellite images, and the accuracy at any given location cannot be guaranteed. See CLEAR website for more information http://clear.uconn.edu.
